EDITOR'S NOTEBOOK

Dear Archie Readers,

I'm sure you're aware by now that Archie Comics are translated into many different languages. I've received letters from fans who have seen our comics in Spanish, French, Greek, Portuguese, Hindi and Korean. Most recently, Archie comics are being published in Russian. While speaking with the Russian publisher, he indicated that many of his readers were anxious to correspond with Archie fans here in the United States. So, if you're interested in having a Russian Pen Pal, here's all you have to do:

1. Write a letter to your soon-to-be Pen Pal. Include as much information about yourself as you would like your Pen Pal to know.

2. Mail your letters to:
   "I Want a Russian Pen Pal!"
   Archie Comic Publications, Inc.
   325 Fayette Avenue
   Mamaroneck, NY 10543

I will forward your letters to Russia. The publisher will then sort and distribute them to Pen Pals who are eager to write back to you. By the way, they will be answering your letters in English.

Before I close, I just want to say that this is an excellent opportunity for you to meet, learn and share experiences with someone in a far-away country. What's really great is the fact that you already have something in common....you love ARCHIE COMICS!

SEND YOUR LETTERS TO: VICTOR GORELICK, EDITOR, ARCHIE COMIC PUBLICATIONS, INC., 325 FAYETTE AVENUE, MAMARONECK, NY 10543

Horses

Horses are mammals with backbones, hence vertebrates. They are found all over the world. Ponies get milk from their mothers but adults eat hay, oats, grass and barley as well as carrots and sugar. Horses wear metal shoes to protect their hooves. Every four to six weeks, a blacksmith takes them off and replaces them with new ones. Horses come in many colors. Each breed has certain abilities and characteristics. Personalities within each breed differ. Horses can run, trot and jump, quickly or slowly. Horses can be trained. A gentle but strong hand is essential. They do not like loud noises. They are sociable. A horse that is abandoned for several months will be unfriendly and uncooperative

Shrubs

Trees, shrubs and vines are all woody plants. But there is a recognizable difference between them: a tree has a definite trunk and grows, with few exceptions, ten feet high or taller. A shrub is less than ten feet high and has many stems rather than a single trunk. A vine has a weak stem and no crown like that of a tree.

Magnifying Glass

A magnifying glass is a tool. It has double convex lenses that bend rays of light coming from the object you are examining. This bending of the light rays deceives your eyes so that the object you are examining looks larger than it truly is. We do not see the actual object we are looking at but its enlarged image.
